

Urban Deer Hunt Program Application

Purpose: The Arkansas Game and Fish Commission (AGFC) supports the use of regulated hunting as the most effective and efficient way to manage wildlife populations. As part of a cooperative effort, the AGFC will provide technical assistance and regulation framework in order to aid municipalities wishing to manage urban deer populations and/or address urban deer issues through the use of archery hunting. The AGFC recognizes that each municipality varies greatly with regards to its governance, population, demographics, land-use patterns, and to the acceptance of urban deer management. Therefore, the AGFC has established an urban deer hunting program which may be adapted to meet the municipalities' needs.

City Contact Information:

Participating municipality: City of Heber Springs

Point of contact person: Lesajernigan Phone number: 501-362-3635
